- COULD ALSO BE USED ON WALLS OR DOORWAYS
- INTEGRAL SOLAR PANEL

ASSEMBLY INSTRUCTIONS / INSTRUCTIONS FOR USE:

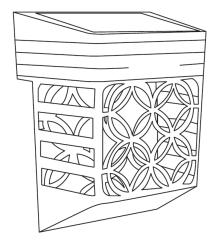

Unpack the components carefully. Please check all parts have been removed from the packaging.

Before using first time

Remove the insulating strip. Allow lamp to charge for at least 12 hours in full sunlight with the ON/OFF switch in the ON position. The ON/OFF switch is located under the solar panel. Once the batteries are fully charged, set the ON/OFF switch to ON. If the lamp does not turn on after dark refer to Maintenance section.

Find an ideal Place for the Solar Light.

Place the solar light in an area where it will receive direct sunlight for at least 8 hours per day. The number of hours the light will illuminate is directly proportional to the hours of sunlight it receives. If the light is placed in a shaded area, it will not be able to fully charge and its illumination time will be limited. Do not place the light near other outdoor lighting like porch or streetlights. These may fool the sensor and keep the light from coming on, or cause it to turn off automatically

Instructions for Use

Please read and retain these instructions for future reference

v001: 16/03/22

Before you start using your solar light:

- 1. Make sure the switch is at M1 position (warm white light) or M2 position (colour changing light), as shown in the diagram below.
- 2. Make sure the solar light is located in a sunny location and solar panel can receive direct sunlight.
- 3. Assemble the unit (as shown in the diagram below), and please the solar light in the right location (as described above).
- 4. Prior to first use, charge it for a full day for optimal performance.

Care and Maintenance Recommendations

- 1. Clean solar panel with a soft sponge every couple of weeks.
- 2. Make sure all connectors are still tight and no water getting in.
- 3. In the winter keep the solar panel free of snow and ice.

BATTERIES

- Keep batteries away from children and pets.
- Do not mix used and new batteries.
- Remove the batteries if left for long periods.
- Never dispose of batteries in a fire.
- Battery disposal, spent or expired batteries must be properly disposed of and recycled in compliance with local regulations. For detailed information, contact your local authority.
- Follow the battery manufacturer's safety, usage, and disposal instructions.
