*UK Calls cost around 7 pence per minute plus your telephone company's network access.
Please check with your telephone supplier.

How to Use

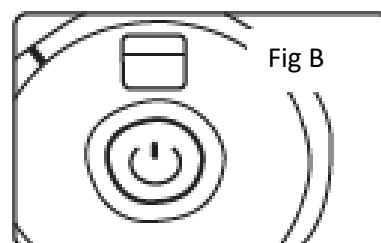

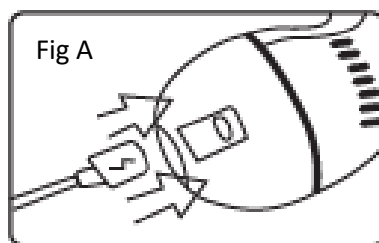

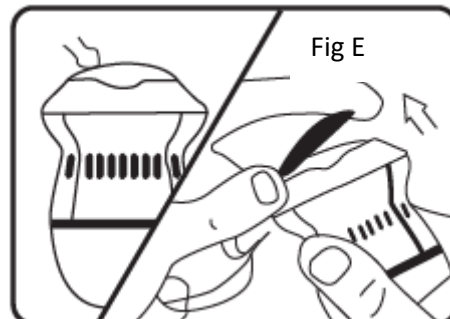

Start by removing the Emery pad cover by lifting it up on one side (Fig. E).

Plug into the micro-USB connector end of the supplied USB cable into the charging port of the Callus Remover (Fig. A). Plug the other end of the USB cable into a USB wall adapter, then plug the adapter into a wall socket.

Turn on the Vacuum Callus Remover by holding down the power button for 2 seconds (Fig. B).

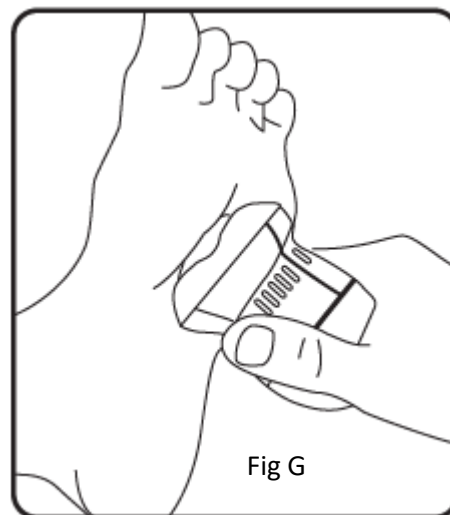

After turning on the unit is in low speed. To increase the speed to high, click the power button once more.

To turn off the Vacuum Callus Remover hold down the power button until the light turns off.

Warning Do not immerse the unit in water or allow water on Vacuum Callus Remover is not waterproof. Store in a dry place.

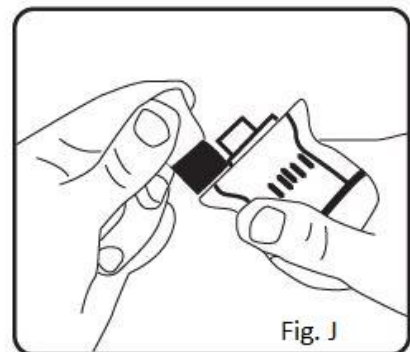

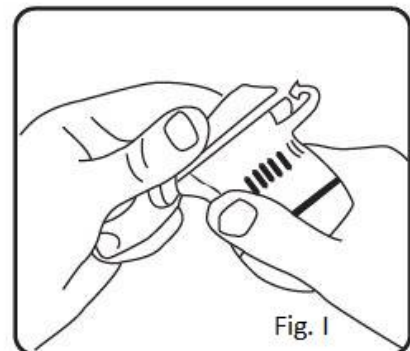

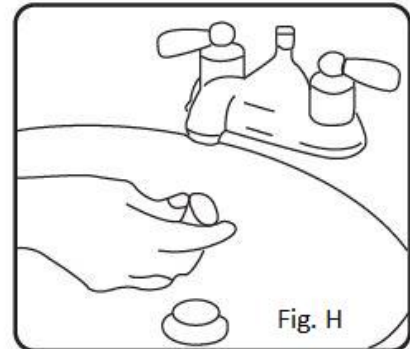

Holding the Callus Remover securely, gently press the emery pad to remove and slowly move outwards towards healthy skin (Fig. G). Check intermittently for desired results. Once new, healthy skin is revealed and switch the unit off.

How to clean

1. Remove the emery pad and clean it by running under warm water (Fig. H).
Allow the emery pad to air dry. Do not attempt to clean the main unit by running it under water. To clean the main unit wipe it down with a soft damp cloth.
2. Once emery pad is removed turn the Callus Remover cover anti-clockwise to open the shavings chamber (Fig. I).
3. Slowly remove the circular sponge filter from the chamber. Rinse the filter with warm water and allow to air dry.
4. Clean the remaining skin shavings out of the chamber with the shavings remover brush provided (Fig. J).
5. Once the chamber is fully cleaned, replace the circular filter, shavings chamber cover and emery pad securely.

For best performance, clean the Portable Vacuum Callus Remover after each use.
