Assembling the stand

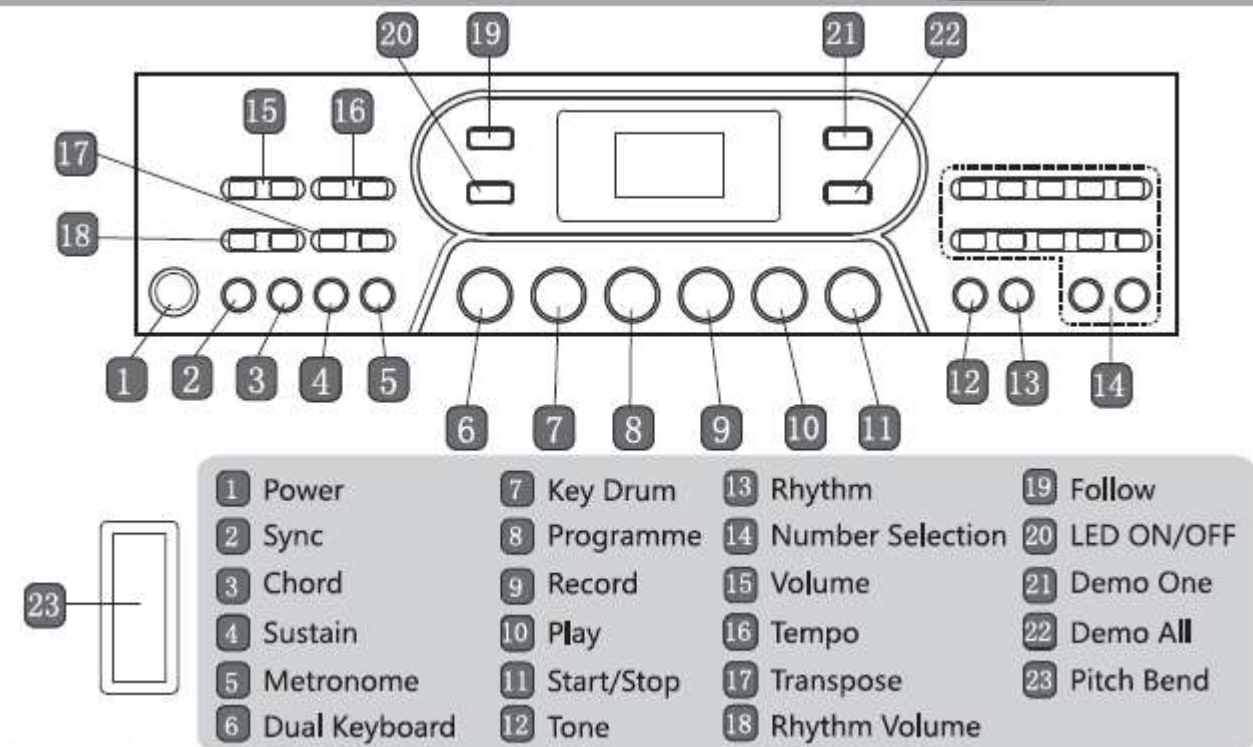

④ Connecting the screw hole position at the bottom of the piano body

③ Adjust the limit screw at the same time on the left and right sides to adjust the appropriate height

Electronic Keyboard

1. Power

Press Power button into playing Electronic Keyboard Mode.

2. Sync

- Press SYNC to start SYNC function, LED show Syn.
- When no rhythm has been played previously, press this Sync button for the rhythm synchronization function and then press one of the first 19 keys on the keyboard, it will play the selected rhythm automatically.
- During rhythm playback, press this button to enter sync mode and stop playing rhythm.

3. Chord

- Press CHORD button into Chord Mode.
- This button only works in Rhythm and General Mode.
- During rhythm play mode, the user presses the button and the key in the range C3-F4 on the keyboard.

- Chord can be used with rhythm/chord/synchronously.

4. Sustain

- Press the SUSTAIN button to turn the sustain function on or off. The LED will display "SuS".
- When the sustain function is turned on, tones will be extended when you play the keyboard.

5. Metronome

- Press Metronome button in 4 change. Beat Sound 1/4-2, 4-3/4-4/4-STOP-1/4...
Default tempo is 120.
- Four gradual change for Metronome, 1/4 – 1-2-3/4-4/4.
- Display 1/4 -1-2/4-3/4-4/4.

6. Dual Keyboard

- Dual Keyboard for on/off function.
- Press the Dual keyboard button, the keyboard on the C3-B4 scale will correspond to C4-B5, on C5-C8 scale will correspond to C4-C7.
- Replace the original timbre of C4-C7 keyboard by using number to select primary timbre.

7. Key Drum

Press this button to get the corresponding percussion sound on the corresponding key.

8. Programme

- Press (PROG) to enter programming mode, the default speed is 120, LED will display "prg".
- In this mode, the key will automatically switch to key drum.
- The maximum of 32 notes can be recorded. If you press 33 times, the 33rd note cannot be recorded as the memory is full. Press the PLAY button to play the programmed sound of the drum.
- Every time the PROG button is pressed, the last program will be cleared and programming mode re-entered.

- After exiting recording, the last record will be cleared.

9. Record

- Press (RECORD) to enter the recording mode, and then press any key or drum key to start recording. LED will display "REC".
- The maximum number of recording is 85, when the memory is full, nothing further can be recorded. Press the PLAY button to play the record.
- Every time the RECORD button is pressed, the last record will be cleared and recording mode recommences. After exiting recording mode, the last record will be cleared.

10. Play

- Press Play (Record) to play recorded notes and percussion sounds, and play them in the selected sound of the recording at the time. LED will display "PLA".
- Play (Programme) to play recorded drum sound, and repeat the play. LED will display "PLA".
- If you press this button when nothing has been recorded previously, nothing will be played.

11. Start/Stop

- Press this button to start rhythm directly.
- This will stop Teaching/Recording/Programme/Playing Demo/Metronome under Learning Mode.

12. Tone

- Press the TONE button to select from the number selection to choose Tone.
- The input number is from 0 to 199. The input must be within the range.

13. Rhythm

Press Rhythm button then press STOP/START into Rhythm mode, using the number selection to choose.

The input number is from 0 to 199. The input must be within this range.

14. Number Selection

- Total 12 Keys 0-9, + and –
- Press “+” or “-” for 2 seconds to continuously increase/decrease options.
- If Tone/Rhythm Mode is selected, Tone is default after Power on.

Every times that you want to change to other tones or rhythm, you should press button TONE or RHYTHM on the keyboard(see picture) first and then press button 0-9 to select tones and rhythm that you want. If the tones is 1 now, and you want to change the tone from 1 to 58, you should press button TONE, then press 5 and 8 successively. Or you can also press button +SELECT 57 times until the LED screen showed 58. If you press button +SELECT 200 times, the original tone 1 will be kept.

15. Volume

- Press Volume + (or -) to increase/decrease the volume of the keyboard.
- 17 volume controlling in total (Display: 00-16), default at 13th.
- Keep pressing volume +/- up to two seconds to keep increasing/decreasing volume.
- Turn back to default volume by pressing volume + and – button at the same time.

16. Tempo

- Press two buttons to control the tempo speed.
- The Tempo control has 210 segments and the tempo range is 30-240. Press Tempo and +/- to increase/decrease the tempo.
- In normal power-on mode, the default tempo displayed is 120.
- When playing the selected song, it will be based on the tempo of the song, regardless of the default tempo.
- When playing the selected rhythm, it will be based on the set tempo.

- Keep pressing Tempo +/- up to 2 seconds to keep increasing/decreasing speed.
- While playing the song, press and hold the Tempo +/- button at the same time, the speed returns to the initial tempo of the song.
- While playing the tempo, keep pressing the Tempo +/- button, the speed returns to the initial tempo of the rhythm itself.

17. Transpose

- Press two buttons to control Transpose, press Transpose and +/- to increase/decrease it.
- There are 13 segments (Display: -6 -6) in Transpose, default value is 7th (Display: 0)
- Keep pressing Transpose +/- up to two seconds to keep increasing/decreasing Transpose.
- Turn back to default volume by pressing Transpose + and – button at the same time.
- Chord will also change.

18. Rhythm Volume

- (Rhythm Vol) button control is used to control the rhythm volume.
- Press (+) button means turning up the volume. Press (-) button means turning down the volume.
- There are 16 sections of the rhythm volume (1-16), the initial default volume is 12 after powering.
- Keep pressing Rhythm Volume (+) and (-), the volume will change to the initial default volume.

19. Follow

- Press Follow mode to play a song without the main melody. The user must press the corresponding white or black keyboard to continue playing the melody.
- The background sound is repeated to play the bar until the song is over.
- After the song is over, the same song can be repeated.

- Under follow mode you are automatically in song select mode. Exiting follow mode will continue select song mode.
- When playing song, pressing TONE will change into tone select mode for 3 seconds and will then return back to song select mode.

20. LED ON/OFF

This button can turn on/off the lights of white and black keyboard. The default is on.

21. Demo One

- Press Demo One on the keyboard to play a song in demo mode first time. To play the next song, press DEMO ONE again.
- After the song has finished playing and you do not press the button Demo Mode, the current song will be repeated.
- Under Demo One mode you are automatically into song select mode. When exiting Demo One mode Select Song Mode will continue.
- When playing song, pressing TONE will change into tone select mode for 3 seconds and will then return back to song select mode.

22. Demo All

- Press Demo All into demo mode to enter mode. Press a second time to exit.
- Enter Demo mode, will play the first demo song.
- Under Demo all mode you are automatically in song select mode. Exiting Demo All song select mode will continue.
- When playing a song, pressing TONE will change into tone select mode, after 3 seconds Song Select mode will be entered.

23. Pitch Bend

Push the Pitch Bend button up and down, and the key tone changes up and down.

⚠ Warning

Please follow the following steps if the keyboard starts fuming or overheats.

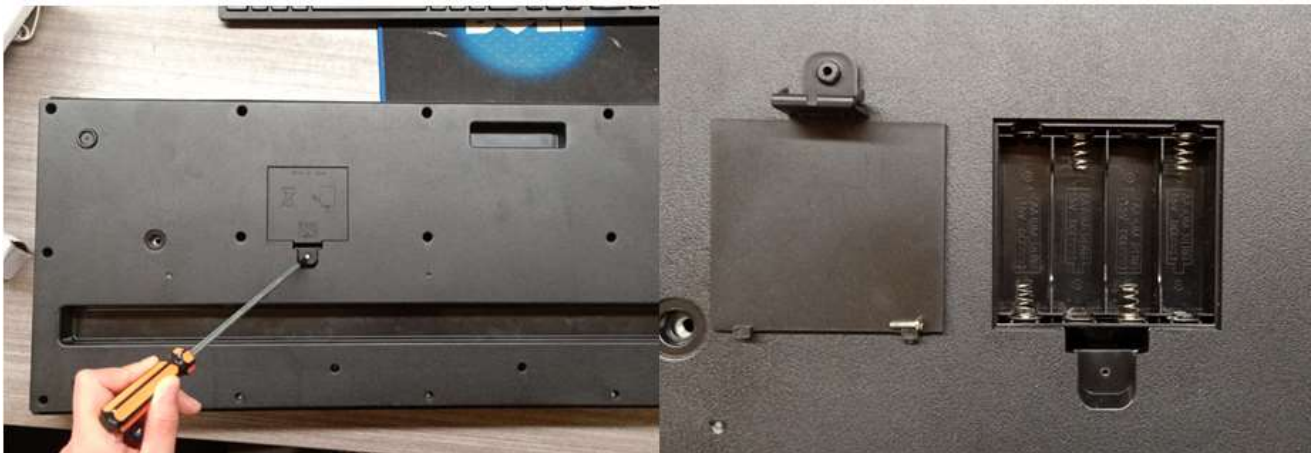

1. Power off.
2. If you are using the adaptor, remove the adaptor from the power socket.
3. It is normal for the adaptor to get hot when it is used for longer periods of time.
4. Please power off and restart the keyboard.

Battery operation

The Electronic Keyboard can be powered by either mains adaptor or batteries. For battery operation remove the screw and battery cover.

Insert the batteries with correct positive+ and negative - direction into the battery slot with 4x AA 1.5V batteries.

Replace the battery compartment cover and screw.

**PLUG WIRING (UK & IRELAND)**

This appliance is supplied with a mains adaptor/charger with BS1363 plug pins.

DO NOT use if the socket outlets in your home or office are not suitable for this product's mains adaptor/charger plug pins. Attempts to insert the mains adaptor/charger into the wrong socket is likely to cause electric hazard or damage.

DO NOT use with any other mains transformer/charger than the one that is supplied with this product.
